VIKRANT VERMA

Senior Full Stack Developer | MERN Stack | React.js | Node.js | Next.js
Lucknow, Uttar Pradesh | +91 8528293237 | vikrant.verma0412@gmail.com | LinkedIn Profile

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 9+ years of experience designing, developing, and deploying scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proven expertise in JavaScript (ES6+), TypeScript, Next.js, and headless CMS architectures (Contentstack, Payload CMS). Experienced in integrating enterprise e-commerce platforms including BigCommerce, Salesforce Commerce Cloud, and Oracle Commerce Cloud. Strong background in REST API development, cloud services (AWS, Firebase), real-time applications (Socket.io, Redis), and Agile methodologies. Recognized as Star Performer of the Year (2022) for delivering high-impact solutions and leading cross-functional teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python
Frontend: React.js, Next.js, Angular, Redux, RxJS, UI/UX, Responsive Design
Build Tools: Vite, webpack, Grunt, Parcel
Backend: Node.js, Express.js, GraphQL, Socket.io, OAuth 2.0, Redis, RabbitMQ, AWS Lambda
Databases: MongoDB, PostgreSQL, MySQL
Cloud and DevOps: AWS, Firebase, Docker, CI/CD, Git, GitHub, Bitbucket, GitLab
CMS and E-Commerce: Contentstack, Payload CMS, BigCommerce, Salesforce Commerce Cloud, Oracle Commerce Cloud
Testing: Jest, React Testing Library, Mocha
Integrations: Stripe, Razorpay, Cloudinary, MapboxGL, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Software Engineer – UI / Node.js
Nvizion Solutions | July 2024 – Present

- Develop and maintain 3+ large-scale web applications using Next.js, Node.js, and headless CMS platforms (Contentstack, Payload CMS) for enterprise clients.
- Architect and implement e-commerce solutions leveraging BigCommerce and Salesforce Commerce Cloud, increasing platform scalability by 40%.
- Lead end-to-end development across frontend and backend, integrating 10+ REST APIs and third-party services per project.
- Collaborate with cross-functional teams of 12+ members on the Composites One B2B platform (compositesone.com), serving aerospace and automotive industries.
- Delivered the PureFormulas e-commerce platform (40,000+ products) using React.js, Oracle Commerce Cloud, and headless commerce architecture.
- Optimized application performance through code splitting, lazy loading, and caching strategies, reducing page load time by 30–50%.

MERN Stack Developer
Mobcoder | June 2021 – July 2024

- Built and deployed 8+ production web applications using React.js, Node.js, MongoDB, and Redis for diverse industry clients.
- Engineered real-time collaboration features using Socket.io and Redis for the PB World and Re4m platforms, supporting live chat and video calls for 500+ concurrent users.
- Integrated third-party APIs including Stripe payments, Facebook API, Google API, and Cloudinary, processing 1,000+ daily transactions.
- Implemented JWT-based authentication and role-based access control (RBAC) for multi-tenant admin panels serving 3+ enterprise clients.
- Spearheaded development of the Re4m cloud-based creative platform, enabling 50+ brand teams to produce and publish content campaigns at scale.
- Awarded Star Performer of the Year (2022) for consistent delivery excellence and cross-team collaboration.

Senior Web Developer
Arivani Technologies Pvt. Ltd. | February 2020 – May 2021

- Led 4+ web development projects from requirements gathering through deployment, ensuring 100% on-time delivery.
- Created cross-browser-compatible interfaces using React.js, HTML5, CSS3, and JavaScript (ES6+), achieving 99% browser coverage.
- Mentored 3 junior developers on coding best practices, code review processes, and Agile methodologies.
- Streamlined project workflows and technical specifications, improving team delivery velocity by approximately 20%.

Front-End Developer
What's New Technologies | January 2019 – February 2020

- Designed and implemented pixel-perfect user interfaces for 5+ client projects with a focus on UI/UX best practices.
- Built reusable component libraries using React.js, reducing development time by approximately 25% for subsequent projects.
- Collaborated with UX designers and backend developers to deliver seamless user experiences across 4+ device types.

Front-End Developer
Chandel Dreams Limited | February 2017 – January 2019

- Crafted frontend solutions for 3+ client-facing web applications using HTML5, CSS3, JavaScript, and React.js.
- Ensured cross-browser compatibility across Chrome, Firefox, Safari, and Edge, reducing browser-specific bugs by 30%.
- Participated in Agile sprints, daily stand-ups, and sprint retrospectives, contributing to 15+ successful releases.

KEY PROJECTS

Composites One (compositesone.com)
Large-scale B2B distribution platform for composite materials serving aerospace, automotive, and marine industries. Built with Next.js, Node.js, Contentstack, and BigCommerce. Team of 12.

PureFormulas (pureformulas.com)
E-commerce platform with 40,000+ health and wellness products. Built using React.js, Oracle Commerce Cloud, and headless commerce architecture.

TREAD Map (dharmamaps.com)
Trail discovery platform for Washington State parks and outdoors. Built with React.js, Next.js, Python, and MapboxGL for interactive mapping.

Re4m (re4m.io)
Cloud-based creative platform enabling 50+ brand teams to produce and publish content campaigns. Built with React.js, Node.js, Socket.io, and MongoDB.

Beu App (app.beuapp.com)
Salon management SaaS platform enabling booking, staff management, and client scheduling. Built with React.js, Node.js, Redis, and MongoDB.

EDUCATION

Master of Computer Applications (MCA) – Amity University, Noida, Uttar Pradesh (2025)

Bachelor of Arts (BA) – CSJM University, Uttar Pradesh (2015)

AWARDS AND RECOGNITION

- **Star Performer of the Year – Mobcoder (2022):** Recognized for exceptional contributions, consistent delivery, and leadership in driving team success across multiple high-impact projects.
